Overview: Your English Journey

Welcome

You are holding a complete path from **no English** to **strong, confident English**. This roadmap was written for **young women in Afghanistan** who want to learn **American English** through **self-study** — often at home, often on a phone, often without a teacher.

If you can read this, you are already learning.

Remember: A broken schedule is not a broken dream. You can restart any day.

Who this roadmap serves

- **Age:** About 18–25 (young adult topics and respect)
 - **First language:** Dari
 - **Time:** About 30–45 minutes per day
 - **Device:** Smartphone
 - **English type:** American English
 - **Mode:** Self-study (no teacher required)
-

What “mastery” means here

Mastery does not mean perfection. It means you can:

- Understand everyday American speech at normal speed
- Express your ideas clearly in speech and writing
- Learn new English on your own (videos, articles, courses)
- Use English for **your goals** — study, work online, help family, connect with the world

That is a realistic, powerful kind of mastery.

Five stages (0 → 4)

Stage	Name	Time (30–45 min/day)	You can...
0	Pre-beginner	Weeks 1–2	Read the alphabet, say hello, use 50 survival words
1	Beginner (A1–A2)	Months 1–3	Talk about daily life in present tense, write short messages
2	Intermediate (B1)	Months 4–8	Tell stories in past tense, share opinions, write paragraphs

Stage	Name	Time (30–45 min/day)	You can...
3	Upper intermediate (B2–C1)	Months 9–14	Discuss abstract topics, read longer texts, write formal emails
4	Advanced (C1–C2)	Months 15–24+	Use nuance, persuade, present, write professionally

Honest truth: Life in difficult circumstances may slow you down. The roadmap still works if you study **3 days a week** — just extend the calendar.

How to use this repository

Step 1 — Read this overview (today)

Understand stages, safety, and daily rhythm.

Step 2 — Take the placement quiz

Open [14-assessments.md](#). Try every question. Then check [answer-keys/14-placement-quiz-KEYS.md](#).

Score	Start here
0–8	02-beginner-foundations.md
9–16	03-core-grammar.md + review 02
17–22	10-intermediate-growth.md
23–25	11-advanced-skills.md

Step 3 — Choose a study plan

- Short push: [study-plans/12-week-beginner.md](#)
- Medium path: [study-plans/24-week-intermediate.md](#)
- Full journey: [study-plans/52-week-mastery-path.md](#)

Step 4 — Track progress

Use [16-tracker.md](#) or [assets/tracker-template.md](#) every week.

Step 5 — Rotate skills daily

Do not study only grammar. Each week should include:

- Vocabulary
- Grammar
- Listening
- Speaking (even alone)
- Reading

- Writing

Templates are in [13-practice-plans.md](#).

Safety and privacy

Study space

- Choose a place where you feel **safe and focused** (home corner, quiet room).
- Use **headphones** when listening so others are not disturbed.
- If someone questions your study, you may say simply: *"I am learning a skill for my future."* You do not owe a long explanation.

Digital safety

- Use **strong passwords** on learning accounts.
- Be careful with **voice recordings** — store in a private folder; delete old files.
- Do not share personal location or contact details in language exchange apps.
- Prefer **well-known free apps** listed in [15-resources.md](#).

Emotional safety

- Compare yourself to **your past self**, not to influencers or fluent speakers online.
 - Shame slows learning. **Curiosity speeds it up.**
 - Rest days are allowed. A rest day is not quitting.
-

Daily time: how to use 30–45 minutes

Option A — One block (40 minutes)

Minutes	Activity
5	Review yesterday's words
15	Main lesson (module or video)
10	Exercises
10	Speaking or writing out loud

Option B — Three blocks (15 + 15 + 15)

Block	Activity
Morning	Vocabulary + pronunciation
Afternoon	Grammar + writing
Evening	Listening + repeat aloud

Busy-week minimum (15 minutes)

- 1. Review 10 words
- 2. Listen to one short clip
- 3. Say five sentences out loud

Fifteen minutes keeps your habit alive.

Cultural awareness in this material

- Examples focus on **home study, family messages, health, goals, online learning** — not unsafe travel or risky meetups.
 - You are portrayed as **capable**, not helpless.
 - We acknowledge that **education may have been interrupted** — without defining you by loss.
 - Gender-respectful examples appear naturally (women studying, working from home, leading projects).
-

Dari speaker advantage

You already speak a rich language. English will feel strange at first — **that is normal**.

Common differences (you will learn fixes in modules):

Dari	English
No articles (<i>a, the</i>)	Articles required
Verb often at end	Subject–verb–object order
Different vowel sounds	New vowel pairs (ship/sheep)
Persian script vs Latin alphabet	New writing system at start

Your brain can learn both. Millions of Dari speakers have learned English — you are on the same path.

Progress Tracker

Track small wins. Numbers are proof that **you are moving forward**.

Learning goals

By using this tracker weekly, you will:

- 1. Build a **daily study habit** (even 15 minutes counts)
 - 2. See which skills you practice most and least
 - 3. Set **realistic monthly goals**
 - 4. Recover motivation after breaks
 - 5. Prepare for checkpoint quizzes in [14-assessments.md](#)
-

Why tracking matters

When life is hard, memory lies. You forget that you learned 200 words last month. A tracker shows the truth: **you are growing**.

What gets measured gets improved — but kindness matters more than perfection.

Level focus

All stages (0–4). Update checklists as you advance.

Step-by-step: set up your tracker (15 minutes)

Lesson 1 — Choose your tool

Pick one:

- Phone **Notes** app (simplest)
- Paper notebook (no battery needed)
- Copy [assets/tracker-template.md](#) into Notes

Lesson 2 — Baseline (Day 1)

Write today’s date and answer:

Question	Your answer
Can I read the English alphabet?	yes / some / no
Can I say hello and thank you?	yes / no
Minutes I can study per day	15 / 30 / 45

Question	Your answer
My main reason to learn English	_____

Lesson 3 — Weekly rhythm

1. Count study days (goal: 5–7)
2. Total minutes
3. One skill to improve next week
4. Copy a new week from the template

Lesson 4 — Monthly checkpoint (30 minutes)

On the last day of each month:

1. Complete the **Stage checklist** below
2. Record yourself speaking 60 seconds — compare to last month (optional)

Day 1 win: spell your name in English letters.

Core Grammar

Stage 1 · Months 1–3 (with foundations)

Learning goals

- 1. Use **verb be** (am, is, are) correctly
 - 2. Use **have / has** for possession and facts
 - 3. Build **present simple** sentences (habits and facts)
 - 4. Ask **yes/no** and **wh-** questions
 - 5. Use **negatives** (don't, doesn't, not)
 - 6. Use **there is / there are**
-

Why this skill matters

Grammar is the skeleton of English. With these patterns, you can describe your life, ask questions, and stop guessing word order.

Learn patterns, not single sentences. Swap one word — make a new sentence.

Level focus

Stage 1 (A1–A2).

Step-by-step lessons

Lesson 1 — Subject + be (20 min)

Subject	Be	Example
I	am	I am tired.
You	you are	You are kind.
He / she / it	is	She is at home.
We / they	are	We are students.

Negative: add **not**

- I am **not** busy.
- She is **not** here.

Questions: swap order

- **Are** you fine? → Yes, I am. / No, I am not.
- **Is** he home?

Dari note: Dari often drops “to be” in present. In English, **do not drop it:** say *I am fine*, not *I fine*.

Lesson 2 — Have / has (20 min)

Use **have** and **has** to show **possession** (I have a book) or some **states** (I have time / She has a problem).

Subject	Form	Example
I / you / we / they	have	I have a phone.
He / she / it	has	She has a sister.

Negative:

- I **do not have** (don't have) Wi-Fi today.
- He **does not have** (doesn't have) class on Friday.

Questions:

- **Do** you have a quiet room? → Yes, I do. / No, I don't.
- **Does** she have your number? → Yes, she does.

Contrast with *be*:

- I **am** tired. (state — adjective)
- I **have** time. (possession / availability)
- She **is** a student. (identity)
- She **has** a book. (possession)

Dari note: داشتن (*dâştan* — to have) works differently. English uses **have/has** in present, not a separate verb like *am/is*.

Pattern practice:

- I have + noun → I have a notebook.
- She has + noun → She has courage.
- Do you have + noun? → Do you have internet?

Lesson 3 — Present simple (20 min)

Use for **habits** and **facts**.

Subject	Verb	Example
I / you / we / they	study	I study English.
He / she / it	studies (+s)	She studies at home.

Negative:

- I **do not** (don't) study at night.

- He **does not** (doesn't) study at night.

Questions:

- **Do** you study English? → Yes, I do.
- **Does** she study English? → Yes, she does.

Lesson 4 — Wh- questions (15 min)

Word	Asks about
What	thing
Where	place
When	time
Who	person
Why	reason
How	way

- **What** do you study? → I study English.
- **Where** do you live?
- **How** do you learn? → I learn on my phone.

Lesson 5 — There is / there are (15 min)

Use	Example
There is + singular	There is a book on the table.
There are + plural	There are two windows.

Negative: There is **not** / There are **not** (no)

Question: **Is** there a phone here?

Lesson 6 — Articles a / an / the (20 min)

Article	Use
a	one general thing: a book
an	before vowel sound: an apple
the	specific thing: the book (we know which one)

Examples:

- I need **a** pen.

- She reads **an** article.
- **The** internet is slow today.

Dari note: Dari has no *a/the*. Practice **out loud** with every new noun.

Lesson 7 — Object pronouns and possessives (15 min)

Subject	Object	Possessive
I	me	my
you	you	your
he	him	his
she	her	her
we	us	our
they	them	their

- I help **her**. **Her** book is new.
- **Our** family is kind.

Pattern practice (swap words)

Pattern: I + verb + noun

- I study English.
- I read books.
- I drink tea.

Pattern: She + verb-s + noun

- She works at home.
- She learns online.

Examples

Daily routine:

I wake up at six. I have tea and bread. I study English for thirty minutes. My sister has a phone; she works at home. We have lunch together. In the evening, I read messages on my phone. I do not have much free time, but I have hope.

Dialogue — At home:

A: Do you have a quiet room for study?

B: Yes, I have a small room. I do not have a desk, but I have a chair and my phone.

A: Does your sister have English books?

B: She has one old book. We have the internet on good days.

Questions for practice:

What do you do in the morning? Where does your family live? Is there a quiet room for study?

Practice tasks

1. Write 10 sentences with *am/is/are*.
2. Write 8 sentences with *have/has* (affirmative, negative, question).
3. Write 5 questions with *do/does* (present simple verbs).
4. Write 5 sentences with *there is/are*.
5. Add *a/an/the* to 10 nouns.
6. Drills: [exercises/03-grammar-drills.md](#)

Self-check questions

1. When do we add **-s** to a verb?
2. Fix: "She don't like tea."
3. Make a question from: "They live in Kabul."
4. Choose: There (is / are) many books.
5. Why is "I am study" wrong?

Common mistakes (Dari speakers)

Mistake	Correct
I fine	I am fine
He go every day	He goes every day
I no like	I do not like
book on table (no article)	a book on the table

Milestone goals

When	Goal
Week 1	Be + have/has
Week 2	Present simple + questions + negatives
Week 3	Articles + there is/are
Week 4	20-sentence routine paragraph

Study habits

- Learn **one pattern** per day; generate 5 new sentences

- Read examples **aloud**
 - When you hear English, notice *do/does* and *is/are*
-

Extended practice

Mixed review (write 12 sentences):

Vocabulary Building

Stage 1 → Stage 2 · Ongoing daily habit

Learning goals

- 1. Learn **high-frequency words** in themed groups
 - 2. Use **word families** (act → action → active)
 - 3. Apply **spaced repetition** without paid apps
 - 4. Reach **300 words** (month 2) and **800+** (month 6)
 - 5. Connect new words to **speaking and writing** same day
-

Why this skill matters

Grammar without words is an empty house. Vocabulary lets you say what you **feel** and **need**.

Ten new words today, used in one sentence each, beat fifty words memorized silently.

Level focus

Stage 1–3 (never stop learning words).

Step-by-step lessons

Lesson 1 — How to learn a new word (15 min)

For each word, save **4 parts**:

Part	Example: <i>patient</i>
English	patient
Meaning (simple)	able to wait calmly
Example sentence	I am patient with my English.
Pronunciation note	PAY-shunt (stress first syllable)

Same day: speak the sentence aloud.

Lesson 2 — Top 50 verbs (20 min)

be, have, do, say, get, make, go, know, take, see, come, think, look, want, give, use, find, tell, ask, work, seem, feel, try, leave, call, need, become, keep, let, begin, help, show, hear, play, run, move, live, believe, bring, happen, write, sit, stand, lose, pay, meet, include, continue, set, learn, change

Lesson 3 — Top 50 nouns for your life (20 min)

time, year, people, way, day, woman, man, child, world, life, hand, part, place, work, week, case, point, government, company, number, night, home, water, room, mother, father, area, money, story, fact, month, lot, right, study, book, eye, job, word, business, issue, side, kind, head, house, service, friend, father, power, hour, game, line, end, member, health, idea, food, student, teacher, language, phone, internet, message, problem, answer, question

Lesson 4 — Thematic sets (learn 10/week)

Home & daily life: kitchen, wash, clean, cook, sleep, wake, tired, busy, quiet, safe

Study: course, lesson, practice, test, mistake, improve, goal, plan, notebook, review

Health: doctor, medicine, pain, better, rest, exercise, body, heart, sick, well

Technology: download, app, Wi-Fi, password, screen, charge, battery, click, search, online

Emotions & strength: hope, courage, proud, worry, calm, strong, free, dream, choose, try again

Lesson 5 — Word families (15 min)

Root	Family
study	student, studied, studying
help	helpful, helper, helpless (careful: negative meaning)
create	creative, creation, creator
educate	education, educational, educator

Rule: Learn the verb first, then nouns/adjectives.

Lesson 6 — Spaced repetition (phone method) (15 min)

Day 1: Learn 10 words

Day 2: Review Day 1 + learn 10 new

Day 4: Review all

Day 7: Review all

Day 14: Review all

Tool: Notes app — title **English words Week 3**. Move mastered words to **DONE** section.

Lesson 7 — 1000-word path (overview)

Month	Target active words
1	150

Month	Target active words
2	300
4	500
6	800
12	1200+

"Active" = you can use it in a sentence, not only recognize it.

Examples

Word map for *learn*:

- I **learn** English every day. (verb)
- Learning takes time. (noun form)
- She is a fast **learner**. (person)

Thematic paragraph:

I use my **phone** for **online study**. I **download** a **lesson** and **practice** in a **quiet room**. I feel **proud** when I **improve**.

Practice tasks

1. Add 10 home words to your notebook with sentences.
 2. Review last week's words before learning new ones.
 3. Describe your day using 15 verbs from Lesson 2.
 4. Drills: [exercises/04-vocabulary-drills.md](#)
-

Self-check questions

1. What four parts should every new word entry have?
 2. What is spaced repetition?
 3. Give one word family from *create*.
 4. How many new words per day is realistic on a busy week?
 5. Why use new words in sentences the same day?
-

Common mistakes

Mistake	Fix
Only translating word lists	Always add an English sentence
Too many words per day	5–10 new words is enough
Ignoring pronunciation	Note stress on first day

Mistake	Fix
Separating vocab from grammar	Use new words in grammar drills

Milestone goals

When	Goal
Week 2	50 words with sentences
Month 1	150 active words
Month 3	300+ words, thematic sets done
Month 6	800+ words

Study habits

- **Morning:** 5 min review
- **Main block:** 10 new words + sentences
- **Evening:** use 3 words aloud
- **Weekly:** delete or archive words you use easily

Extended practice

Week themes:

Week	Theme	Target
1	Home + food	+70 words
2	Study + tech	+70 words

Pronunciation (American English)

Stage 1 → Stage 4 · Daily 5–10 min alongside other skills

Learning goals

- 1. Hear and produce **American vowels** (ship vs sheep)
- 2. Pronounce **th**, **r**, and **w** more clearly
- 3. Use **word stress** so listeners understand you
- 4. Fix **Dari-influenced** sound habits
- 5. Use your phone to **record and compare**

Why this skill matters

Good grammar with unclear sounds still blocks communication. Clear pronunciation builds **confidence** — people listen to your ideas, not only your accent.

Goal: understood, not perfect. Native-like accent is optional.

Level focus

Stage 1 starts; refine through Stage 4.

Step-by-step lessons

Lesson 1 — American English basics (15 min)

- **R** is stronger than in British English: *water, far*
- **T** between vowels sounds like quick *d* in casual speech: *water, better* (later stage)
- Final consonants: try to **finish** the sound: *help*, not *hel*

Lesson 2 — Vowel pairs (20 min)

Sound	Example	Common mistake
/ɪ/ short i	ship	sounds like sheep
/i:/ long ee	sheep	
/ɛ/	bed	
/æ/	cat	
/ʌ/	cup	
/ɑ:/	father	

Practice sentence:

I sit in a big city and drink tea.

Say slowly. Record. Listen.

Lesson 3 — Consonants for Dari speakers (20 min)

TH (voiceless) — *thank, think, three*

- Tongue lightly between teeth, air out
- Not *tank* or *sank*

TH (voiced) — *this, that, mother*

- Tongue between teeth, voice on

P vs F — *pat* vs *fat* — lips vs teeth**V vs W** — *very* vs *west* — teeth on lip for v**H** — *he, home* — breathe out, not silent

Dari note: Sounds that do not exist in Dari need **daily 2-minute drills**. Short daily beats long weekly.

Lesson 4 — Word stress (15 min)

English stressed syllable is **louder and longer**.

Word	Stress (CAPS)
PHOtograph	pho-TO-graphy (shift!)
comPUter	
eduCAtion	
paTIENT	

Rule: Stress wrong syllable → word sounds foreign or unclear.

Practice: Clap on stressed syllable: com-**PU**-ter

Lesson 5 — Sentence rhythm (15 min)

Content words (nouns, verbs) stronger; function words (*a, the, to*) softer.

- I **want** to **study English**.
- She **lives** at **home**.

Read aloud with exaggeration first, then natural speed.

Lesson 6 — Phone recording routine (10 min daily)

1. Read 3 sentences from any module
 2. Record voice memo
 3. Listen — note one sound to fix tomorrow
 4. Optional: compare to slow American audio (see [15-resources.md](#))
 5. **Privacy:** store in locked/private folder; delete monthly
-

Examples

Minimal pairs (train your ear):

A	B
ship	sheep
live (verb)	leave
very	berry (different vowels)

Introduction with clear stress:

HEL-lo. **MY NAME IS** Zahra. I **STUD**-y **ENG**-lish at **HOME**.

Then make it natural without losing key stresses.

 2. Record introduction — listen once — repeat.
 3. Clap stress on 10 words from [04-vocabulary-building.md](#).
 4. Drills: [exercises/05-pronunciation-drills.md](#)

Self-check questions

1. What is the difference between *ship* and *sheep*?
 2. Where is your tongue for *thank*?
 3. Why does word stress matter?
 4. How can you practice safely on a shared phone?
 5. Is perfect accent required for good communication?
-

Common mistakes

Mistake	Fix
Replacing <i>th</i> with <i>t</i> or <i>s</i>	Slow drill 20 reps
Dropping final consonants	Exaggerate final sound 10 times
Flat stress on all syllables	Clap + CAPS stress
Never listening to yourself	Record 3x/week minimum

Milestone goals

When	Goal
Week 2	Hear difference in one vowel pair
Month 1	<i>th</i> improved in 5 common words
Month 3	Stress correct on 20 common words
Month 6	2-minute speech mostly understood

Study habits

- **5 min** before main lesson — one sound only
- Same sound for **3 days** before switching
- Praise one improvement per week (not one failure)

Extended practice

7-day sound focus:

Day	Sound
Mon	th voiceless
Tue	th voiced
Wed	ship/sheep
Thu	pat/fat
Fri	word stress (10 words)
Sat	record 2 min
Sun	rest or light review

Minimal pair list (20 reps each): live/leave, very/berry, west/vest, pick/peek.

Listening Skills

Stage 1 → **Stage 4** · 10–15 min daily recommended

Learning goals

- 1. Understand **slow, clear** English (Stage 1)
 - 2. Move to **natural speed** short clips (Stage 2+)
 - 3. Use **dictation** to train your ear
 - 4. **Wean off subtitles** gradually
 - 5. Keep learning when **internet fails** (downloaded audio)
-

Why this skill matters

Real English is heard before it is read. Listening trains your brain for **speed, rhythm, and real grammar** — not only textbook English.

If you understand 60% of a clip, it is the right level. Not 95% — too easy. Not 20% — too hard.

Level focus

Stage 1: slow · **Stage 2:** normal short · **Stage 3+:** podcasts, lectures

Step-by-step lessons

Lesson 1 — Listening levels (10 min)

Level	What you hear	Goal
1	Single words, slow	Recognize sounds
2	Short sentences, slow	Catch subject + verb
3	1–2 min dialogue, clear	Main idea
4	News/podcast clips	Details + opinion
5	Movies, fast speech	Slang, humor (advanced)

Move up when you understand **main idea** without pausing every line.

Lesson 2 — Daily listening routine (15 min)

Step	Minutes	Action
1	2	Predict topic from title

Step	Minutes	Action
2	5	Listen once — no text
3	5	Listen again — note 3 words you heard
4	3	Listen with transcript — check
5	optional	Shadow last sentence (repeat aloud)

Lesson 3 — Dictation (15 min)

1. Play **one sentence** (slow English)
2. Pause
3. Write what you hear
4. Check transcript
5. Fix spelling and missed words

Beginner sentence example:

"I study English at home every day."

Lesson 4 — Subtitle strategy (10 min)

Phase	Subtitles
Week 1–4	English subtitles ON
Month 2–3	English subtitles, pause less
Month 4+	Try without subtitles, then check
Advanced	No subtitles first

Avoid: Dari subtitles only — your ear will not train.

Lesson 5 — Offline and weak internet (10 min)

- **Download** videos/audio on Wi-Fi (YouTube offline, podcast apps)
- Save **2–3 clips** for the week
- Repeat same clip **3 days** — deep learning beats endless new content
- Partner/sister: one downloads, shares file if safe and allowed

Lesson 6 — Listening for exams and messages (Stage 2+)

- **Scan** for numbers, names, times
- **Signal words:** but (contrast), because (reason), so (result)
- Voice messages: listen twice before replying

Examples

What to write after listening (Level 3):

Topic: studying at home

Speaker: woman, American

Main idea: she studies 30 minutes daily

Words I heard: practice, improve, patient

Dictation check:

Audio: "She wants to learn English for her future."
Your write: She wants to learn english for her future.
Fix: capitalize English; check wants ending.

Practice tasks

- 1. One slow clip today — follow 5-step routine.
- 2. Dictate 5 sentences from [02-beginner-foundations.md](#) dialogues (read aloud yourself, or use resources).
- 3. Download one clip for offline repeat.
- 4. Drills: [exercises/06-listening-drills.md](#)

Self-check questions

- 1. What is the 60% understanding rule?
- 2. Name the 5 steps of the daily routine.
- 3. Why should English subtitles beat Dari-only subtitles?
- 4. How many times should you reuse a good-level clip?
- 5. What do signal words *but* and *because* tell you?

Common mistakes

Mistake	Fix
Only watching, not listening	Close screen sometimes — audio only
Always max speed	Start slow; speed up gradually
New clip every day	Repeat one clip 3 days
Giving up at 30% understanding	Choose easier level

Milestone goals

When	Goal
Month 1	20 slow clips completed
Month 3	Main idea without transcript on slow audio

When	Goal
Month 6	2-min natural speech with some replay
Month 12	Podcast 10 min with notes

Study habits

- Same **time of day** trains your ear
- Headphones help focus
- Log clip title + % understood in tracker

Extended practice

4-week listening ladder:

Week	Material	Goal
1	Single sentences slow	Understand ~90% of main words
2	30-sec clips	Main idea
3	1-min clips	3 details
4	2-min clip	Summary sentence

Readings with audio: Read [graded-readings.md](#) aloud yourself, or use VOA.

Offline: Download 5 clips Sunday; use Mon–Fri without internet.

Speaking Skills

Stage 1 → **Stage 4** · Speak aloud every study day

Learning goals

1. Speak **daily** even without a partner
 2. Use **shadowing** (repeat with audio)
 3. Build **self-talk** habits (describe your day)
 4. Record voice **safely** on your phone
 5. Grow from **survival** phrases to **2+ minute** talks
-

Why this skill matters

English lives in your **mouth**, not only in your notebook. Speaking builds fluency and courage faster than silent study.

Your voice is valid even with mistakes. Communication beats perfection.

Level focus

Stage 1: phrases · **Stage 2:** 1–2 min · **Stage 3+:** opinions, stories

Step-by-step lessons

Lesson 1 — Speak from day 1 (10 min)

Rules:

- **Louder than whisper** — your mouth learns muscle memory
- **Slow is fine** — clear beats fast
- **Mistakes allowed** — fix one thing per day, not ten

Today: Say your introduction 5 times (from [02-beginner-foundations.md](#)).

Lesson 2 — Shadowing (15 min)

1. Play one sentence (slow audio)
2. Pause
3. Repeat **exactly** — copy rhythm and stress
4. Record yourself
5. Compare once

Starter sentences:

- I am learning English step by step.
- Today I feel hopeful about my future.
- I study at home because I want a better life.

Lesson 3 — Self-talk (15 min)

Narrate your real day in simple English:

I wake up. I drink tea. I open my phone. I study English. I help my mother. I feel tired but happy.

Levels:

Stage	Self-talk length
1	5 sentences
2	10 sentences, past tense
3	opinions + reasons
4	abstract topics (hope, education, work)

Lesson 4 — Conversation patterns (20 min)

Agree: I agree. / That is true. / Me too.

Disagree politely: I see your point, but I think...

Ask more: Can you tell me more? / Why do you think that?

Buy time: Let me think... / That is a good question.

Practice alone: Play both sides — A and B voice.

Lesson 5 — Recording safely on smartphone (10 min)

- Folder name: **English practice private**
- Delete old files monthly
- Do not post publicly without strong reason
- If sharing with sister/friend: trusted person only

Weekly challenge: 60-second voice note — topic: *my week*.

Lesson 6 — Optional peer practice (safety first)

If you use apps or chat:

- No personal address or school location
- Public place not required for voice chat — **home is fine**
- Stop if someone is rude or pressures you

- Prefer female language partners when possible
- See safe app list in [15-resources.md](#)

Examples

Stage 1 — 30 seconds:

Hello. My name is Maryam. I am 20 years old. I live in Afghanistan. I study English every day at home. I want to work online in the future. Thank you for listening.

Stage 2 — 90 seconds (outline):

- Past: Yesterday I studied grammar.
- Present: Today I feel motivated.
- Future: Tomorrow I will practice listening.
- Opinion: I think English opens doors for women.

Practice tasks

1. Shadow 5 sentences from any listening clip.
2. Self-talk: describe breakfast to bedtime (10 sentences).
3. Record 60-second introduction; listen once.
4. Drills: [exercises/07-speaking-drills.md](#)

Self-check questions

1. What is shadowing?
2. Why is self-talk useful without a teacher?
3. Name two phrases for polite disagreement.
4. How should you store recordings on a shared phone?
5. What is a good Stage 1 speaking goal length?

Common mistakes

Mistake	Fix
Silent reading only	Speak 5 min before ending session
Speaking too fast	Slow down — clarity first
Ashamed of accent	Focus on one sound per week
Skipping recording	Record weekly to hear growth

Milestone goals

When	Goal
------	------

When	Goal
Week 1	Introduction without reading
Month 1	30 sec fluent-ish intro
Month 3	2 min self-talk
Month 6	Opinions with reasons 2 min

Study habits

- Speak **before** you feel ready

Reading Skills

Stage 1 → Stage 4 · 10–15 min daily

Learning goals

- 1. Use **phonics** (letters → sounds) at Stage 0–1
 - 2. Move from **letters** to **graded texts**
 - 3. Read **messages and short articles** with strategies
 - 4. **Scan** for information (time, name, price)
 - 5. **Infer** meaning from context
 - 6. Build reading speed without skipping comprehension
-

Why this skill matters

Reading feeds vocabulary and grammar at your speed. On a phone, you can read English **anywhere** — privacy, safety, independence.

Read a little every day. One paragraph beats zero pages.

Level focus

Stage 1: words/sentences · **Stage 2:** paragraphs · **Stage 3+:** articles, news

Step-by-step lessons

Lesson 0 — Phonics: letters to sounds (20 min)

For Stage 0–1. Reading English starts with **linking letters to sounds**.

Consonants (common sounds):

Letter	Sound in	Example
B	book	b ook
D	day	d ay
F	food	f ood
H	home	h ome
K	key	k ey
L	learn	l earn
M	mother	m other

Letter	Sound in	Example
N	name	n ame
S	study	s tudy
T	tea	t ea

Short vowels (practice slowly):

Letter	Sound	Word
A	/æ/	cat, hat
E	/ɛ/	bed, red
I	/ɪ/	sit, big
O	/ɒ/ or /ɑ/	hot, go (American varies)
U	/ʌ/	cup, sun

Blends (two letters, one flow):

- **sh** — she, wish
- **ch** — child, teach
- **th** — thank, this (see [05-pronunciation.md](#))
- **st** — study, stop
- **br** — bread, brother

Phone practice (5 min daily):

1. Pick 5 words from [02-beginner-foundations.md](#).
2. Say each **sound by sound**, then whole word.
3. Type the word — connect **eyes** → **fingers** → **mouth**.

Dari note: یکسان نیست *cat* و *name* در *a* حروف لاتین صداهاى متفاوت دارند — حرف *Be patient; phonics takes 2–4 weeks.*

Simple decode steps:

1. Look at first letter → say sound
2. Move left to right
3. Blend: *s + t + u + d* → *study*

When a word is long, split: *re-mem-ber* (later stage).

Lesson 1 — Reading levels (10 min)

Level	Text type
A	Single words, labels

Level	Text type
B	1–3 sentences
C	Short dialogues
D	100–200 word stories
E	News, blogs, chapters

Rule: Know ~**80%** of words or guessable from context.

Lesson 2 — Decode strategy (15 min)

For hard words:

1. Skip — read the sentence anyway
 2. Guess from context
 3. Look up only **key** words (do not stop every line)
 4. Write one English definition in your notebook
-

Lesson 3 — Graded reading routine (20 min)

Step	Action
1	Skim title and first sentence
2	Read full text once — no dictionary
3	Circle unknown words (mental note)
4	Read again — guess meanings
5	Write 2 sentences: main idea + my opinion

Lesson 4 — Scanning (15 min)

Find **fast**:

- phone number, email, date, price, name

Practice text:

Class starts on **March 12** at **9:00 a.m.** Email **learn@example.com** for help. Fee: **free**.

Questions: When? What time? Email? Cost?

Lesson 5 — Inference (15 min)

Text: *"Sara's hands shook as she opened the test results. Then she smiled."*

Infer: Sara was nervous; news was good.

Practice: Read short stories — ask *How did she feel? Why?*

Lesson 6 — Phone reading habits (10 min)

- Increase font size for comfort
 - Night mode for eyes
 - Bookmark one article — finish tomorrow (not 10 half-read)
 - Download PDF/HTML for offline ([15-resources.md](#))
-

Sample graded text (Stage 1–2)

My Study Corner

I study English in a small room at home. I use my phone and a notebook. I learn thirty minutes every day. Some days I am tired, but I continue. My sister sometimes listens and smiles. I want to read books in English one day. I know patience is important. Every word I learn is a step forward.

Comprehension (try before keys in exercises):

1. Where does she study?
 2. How long each day?
 3. Who listens sometimes?
 4. What is her dream?
-

Practice tasks

1. Read sample text twice; answer questions.
 2. Scan a real message (email/chat) for one fact.
 3. Write 3 sentences summarizing your day (reading + writing link).
 4. Drills: [exercises/08-reading-drills.md](#)
-

Self-check questions

1. What is the 80% word rule?
 2. What are the 5 steps of graded reading?
 3. What is scanning vs deep reading?
 4. What is inference?
 5. Why not look up every unknown word?
-

Common mistakes

Mistake	Fix
Text too hard	Drop one level

Mistake	Fix
Translating every word in head	Summarize in simple English
No re-read	Second read builds speed
Only social media slang	Add one graded paragraph/week

Milestone goals

When	Goal
Month 1	10 short texts
Month 3	150-word story understood
Month 6	News article with notes
Month 12	Book chapter or long blog

Study habits

- Read **aloud** sometimes — links to speaking
- Keep a **reading log** (title + date) in tracker

Why this skill matters

Writing makes thinking clear. It helps you apply for courses, send professional messages, and express yourself when speaking is not possible.

Write messy first. Edit second. Courage first, perfection later.

Level focus

Stage 1: sentences · **Stage 2:** paragraphs · **Stage 3+:** formal writing

Step-by-step lessons

Lesson 1 — Sentence skeleton (15 min)

Subject + Verb + Object (American order)

Part	Example
Subject	I
Verb	study
Object	English

- I study English. ✓
- Study I English. X

Dari note: Dari allows flexible order. English is stricter — subject usually **first**.

Lesson 2 — Capitalization and punctuation (15 min)

Capitalize:

- First word of sentence
- I
- Names, places: Fatima, Afghanistan, Monday
- Language: English

Punctuation:

Mark	Use
.	end of statement
?	question
!	strong feeling (use rarely)
,	short pause in list or clause

Example:

Hello, my name is Laila. I live in Afghanistan. Do you study English?

Lesson 3 — Chat writing (10 min)

Short, clear, polite:

Good morning! I am fine today. I studied English for 30 minutes. How are you?

Avoid: all caps (looks angry), too many !!!

Lesson 4 — Daily journal (15 min)

Template (5 sentences):

1. Today I...
2. I felt...
3. I learned...
4. Tomorrow I will...
5. I am grateful for...

Optional: journal helps emotions — keep private.

Lesson 5 — Paragraph structure (20 min)

One paragraph = 5–8 sentences

1. **Topic sentence** — main idea
2. **Detail** — example or reason
3. **Detail** — second example
4. **Closing** — summary or feeling

Example topic: Why I study English

I study English because it gives me independence. I can take online courses and read global news. I practice thirty minutes every day at home on my phone. Some days are hard, but I continue. English is a door to my future, and I choose to open it.

Lesson 6 — Linking words (15 min)

Type	Words
Add	and, also, moreover
Contrast	but, however, although
Reason	because, since
Order	first, then, finally
Example	for example, such as

Lesson 7 — Self-editing checklist (10 min)

Before you finish:

- ☐ Every sentence starts with capital
 - ☐ Subject + verb match (she **goes**, not she go)
 - ☐ Period at end
 - ☐ / is capital
 - ☐ Read aloud — does it sound right?
-

Examples

Stage 1 — 5 sentences about today:

I woke up early. I helped my family. I studied English on my phone. I learned ten new words. I feel proud tonight.

Stage 2 — email (informal):

Subject: Question about the online course

Dear Teacher,

My name is Hawa. I am interested in your free English course. Can you tell me how to register? Thank you for your time.

Best regards,

Hawa

Practice tasks

- 5. What are five items on the editing checklist?

Common mistakes

Mistake	Fix
i instead of I	Always capital I

Intermediate Growth (B1 → B2)

Stage 2 · Months 4–8

Learning goals

- 1. Use **past tense** for stories and experiences
 - 2. Use **future** forms (will, going to, present continuous for plans)
 - 3. Express **opinions** and **reasons**
 - 4. Connect ideas with **linking words**
 - 5. Speak and write **2–5 minutes** on familiar topics
-

Why this skill matters

Beginner English describes *now*. Intermediate English describes *your life story* and *your plans* — past hardships, future dreams, present choices.

You are no longer “studying English.” You are using English to live and think.

Level focus

Stage 2 (B1 → B2 bridge).

Prerequisite: Solid Stage 1 — present tense, 300+ words, basic listening.

Step-by-step lessons

Lesson 1 — Past simple: regular verbs (20 min)

Form: verb + **-ed** (walk → walked)

Affirmative	Negative	Question
I walked	I did not walk	Did you walk?
She studied	She did not study	Did she study?

Spelling rules:

- stop → stopped (double consonant)
- try → tried (y → ied)
- play → played

Examples:

Yesterday I **studied** English for forty minutes.
 Last year I **started** learning at home.
 She **helped** her sister with homework.

Lesson 2 — Past simple: irregular verbs (25 min)

Learn in **groups of 5 per week**:

Base	Past
go	went
see	saw
make	made
take	took
come	came
get	got
know	knew
think	thought
say	said
feel	felt
have	had
be	was / were

Story practice:

Last week I **went** online. I **saw** a free course. I **took** notes. I **felt** nervous but happy.

Lesson 3 — Past continuous (15 min)

Was/were + verb-ing — action in progress in the past

I **was studying** when my mother called.
 They **were watching** a lesson at 8 p.m.

Contrast:

I **studied** (finished action) vs I **was studying** (in progress)

Lesson 4 — Future forms (20 min)

Form	Use	Example
------	-----	---------

Form	Use	Example
will	decision, promise, prediction	I will practice tomorrow.
going to	plan already decided	I am going to finish Module 10.
present continuous	fixed arrangement	I am meeting my sister tonight to study.

Lesson 5 — Modals for ability and advice (20 min)

Modal	Meaning	Example
can / could	ability	I can read slow English.
should	advice	You should review old words.
must / have to	necessity	I must rest when I am sick.
may / might	possibility	It might rain; I will study inside.

Lesson 6 — Opinions (15 min)

Phrase	Example
I think...	I think daily practice works.
In my opinion...	In my opinion, women should have education.
I believe...	I believe hope is important.
I agree / disagree	I disagree with stopping after one hard day.

Structure: Opinion + reason + example

I think English opens opportunities. **Because** many courses are online. **For example**, I found free grammar lessons.

Lesson 7 — Connectors and storytelling (20 min)

Timeline words: first, then, after that, later, finally

Contrast: however, although, but

Cause: because, since, so

Mini story (90 sec spoken):

First, I was afraid to speak. **Then** I recorded my voice every week. **After that**, I understood more listening clips. **Finally**, I spoke for two minutes without stopping. **Although** I still make mistakes, I continue.

Lesson 8 — Fluency bridges (15 min)

Fillers (natural, not too many):

- Well, ... / Let me see, ... / I mean, ...

Rephrase when stuck:

Sorry, let me say that another way. ...
What I want to say is, ...

Practice: 2-minute talk on *a challenge I overcame*.

Examples

Past + opinion paragraph:

Last month I had a difficult week. I did not study for three days because I was tired. However, I started again on Monday. I think consistency matters more than perfection. I am going to study thirty minutes daily this month. I believe small steps change lives.

Practice tasks

1. Write 10 past tense sentences about last week.
 2. Write 5 future sentences (will + going to).
 3. Record 2-minute story with timeline connectors.
 4. Drills: [exercises/10-intermediate-drills.md](#)
-

Self-check questions

1. How do you form past tense for regular verbs?
 2. Past of *go, see, have*?
 3. When use *will* vs *going to*?
 4. Write one opinion + because + example.
 5. Name four timeline connectors.
-

Common mistakes

Mistake	Fix
I go yesterday	I went yesterday
Did you went?	Did you go ?
I will going	I am going to go / I will go
No connector in long speech	Add first, then, finally

Milestone goals

When	Goal
Month 4	Past tense regular + 10 irregular
Month 5	Future + modals in speech
Month 6	2-min story with connectors
Month 8	B1 checkpoint quiz pass (14-assessments.md)

Study habits

- **Monday:** past · **Wednesday:** future · **Friday:** opinion speaking
- Re-use one life story — add detail each week (deeper, not always new)

Extended practice

Irregular verb bank (learn 5/week): go, see, make, take, come, get, know, think, say, feel, have, be, do, eat, drink, write, read, speak, buy, tell.

Story template: Last [time], I [past verb]. Then I [past verb]. Finally, I [past verb]. Now I [present]. Tomorrow I will [future].

Advanced Skills (B2 → C2)

Stage 3 → Stage 4 · Months 9–24+

Learning goals

- 1. Build **complex sentences** (clauses, conditionals)
- 2. Control **register** (formal vs informal)
- 3. Write and speak **professionally** (email, presentations)
- 4. Use **hedging** and **nuance** (maybe, tend to, it appears)
- 5. Argue a position **clearly and politely**

Why this skill matters

Advanced English is not “more grammar rules.” It is **precision, respect, and power** — in school applications, remote work, advocacy, and global conversation.

You have something to say. Advanced English helps the world hear it clearly.

Level focus

Stage 3–4 (B2 → C1 → C2).

Step-by-step lessons

Lesson 1 — Relative clauses (20 min)

Who — people · **which** — things · **that** — both (informal)

The woman **who** teaches online inspires me.
The course **which** I took was free.
The book **that** I read was difficult.

Reduced: The woman teaching online... (advanced style)

Lesson 2 — Conditionals (25 min)

Type	Structure	Example
Zero	If + present, present	If you heat ice, it melts.
First	If + present, will	If I practice, I will improve.
Second	If + past, would	If I had time, I would study more.
Third	If + past perfect, would have	If I had started earlier, I would have learned more.

Your life:

If I study daily, I will reach B2.

If I had fluent English now, I would apply for more scholarships.

Lesson 3 — Passive voice (15 min)

Be + past participle — focus on action/object

English **is taught** online.

The message **was sent** yesterday.

Mistakes **are made** — that is normal.

Lesson 4 — Register: formal vs informal (20 min)

Informal	Formal
Hi	Dear / Hello
Thanks a lot	Thank you for your assistance
I want	I would like
ASAP	as soon as possible
kids	children

Rule: Job, university, unknown adults → **formal**. Friends, sisters → **informal**.

Lesson 5 — Hedging and nuance (15 min)

Avoid sounding too absolute in academic/professional speech:

Hedge	Example
may, might	This may help learners.
tend to	Women tend to face more barriers.
it seems / appears	It appears that practice works.
in many cases	In many cases, small groups help.

Lesson 6 — Argument structure (25 min)

1. **Claim** — main point
2. **Evidence** — fact or example
3. **Counter** — other view (optional)
4. **Reply** — why your claim still holds
5. **Conclusion**

Topic: Education should be available to all women.

Claim: Every woman deserves access to education. **Evidence:** Studies show education improves health and income. **Counter:** Some say resources are limited. **Reply:** Long-term investment in women strengthens communities. **Conclusion:** Restrictions harm society; education is a right.

Lesson 7 — Professional email (20 min)

Structure:

- Subject line (clear)
 - Greeting (Dear Ms. ... / Dear Team)
 - Purpose (first paragraph)
 - Details (bullet points if needed)
 - Polite close (Thank you for your consideration)
 - Signature (name, optional contact)
-

Lesson 8 — Presentations (20 min)

Outline (5–7 min talk):

1. Hook — question or short story
2. Problem
3. Your main points (3 bullets)
4. Solution or hope
5. Call to action — what listener can do
6. Thank you

Practice: Record on phone; watch once; note filler words to reduce.

Examples

Formal sentence:

I am writing to inquire about the registration deadline for the online certificate program.

Nuanced opinion:

Although progress takes time, it seems that consistent self-study can lead to strong results, especially when learners face limited classroom access.

Practice tasks

1. Write 5 sentences with *who/which/that*.
 2. Write 3 first conditional + 2 second conditional sentences about your goals.
 3. Draft one professional email (real or practice).
 4. Record 3-minute presentation outline on *why I learn English*.
-

Self-check questions

1. When use *who* vs *which*?
 2. Give an example of first vs second conditional.
 3. What is hedging and why use it?
 4. Name five parts of an argument.
 5. What is different in formal email greeting?
-

Common mistakes

Mistake	Fix
Too informal in job email	Use Dear, would like, thank you
Too formal with close friend	Relax tone
Every sentence passive	Mix active + passive
No evidence in arguments	Add one fact or personal example

Milestone goals

When	Goal
Month 9	Relative clauses in writing
Month 12	5-min structured presentation
Month 18	Formal email without major errors
Month 24	C1-style essay or long opinion piece

Study habits

- Read **one serious article** weekly (news, UN, education blogs)
 - Copy **one formal paragraph** style per week
 - Debate with sister: 10 min English each side
-
-

Extended practice

Drills: [exercises/11-advanced-drills.md](#)

Study Strategies for Long-Term Success

All stages · Read early; revisit after breaks

Learning goals

- 1. Build **consistency** without burnout
 - 2. **Restart** after gaps without shame
 - 3. Create a **safe** study environment
 - 4. Use **motivation** tools that work in hard times
 - 5. Study with a **sister circle** safely (optional)
-

Why this skill matters

Skills fade without habits. Strategies keep you learning when life interrupts school, internet, or confidence.

Discipline is remembering what you want. Courage is studying anyway.

Level focus

All stages — especially after breaks.

Step-by-step lessons

Lesson 1 — The 3 pillars (15 min)

Pillar	Action
Time	Same window most days (even 15 min)
Method	Rotate skills (V/G/L/S/R/W)
Mindset	Kind self-talk

Missing one pillar? Fix the weakest — usually mindset after a hard week.

Lesson 2 — Motivation that lasts (20 min)

Weak motivation: “I must be fluent in 3 months.”
Strong motivation: “Today I will learn 10 words and use them.”

Write your why (keep private):

- For my education
- For remote work

- To read books
- To help my family
- To prove I can

Read your why every Sunday.

Visual wins: checklist in [16-tracker.md](#) — tick marks release dopamine.

Lesson 3 — Recovery after interruption (15 min)

If you stopped 1–7 days:

1. Do **not** study double time to “catch up”
2. Open tracker — read last win
3. Study **15 minutes** today only
4. Return to normal plan tomorrow

If you stopped 1+ months:

1. Re-take placement quiz ([14-assessments.md](#))
2. Review **one** module below your level (confidence)
3. Start **12-week plan** again at Week 1 rhythm — content may be faster second time

Shame is not a study method. Restart is.

Lesson 4 — Study space safety (15 min)

- Chair or cushion, good light if possible
- Phone on silent except study app
- Water nearby
- Tell one trusted person “I study now” if that protects your time
- If interrupted often, use **headphones** + short sessions

Digital: separate folder for English; avoid mixing with stressful chats mid-session.

Lesson 5 — Sister study circle (optional, 20 min)

Safe circle rules:

- 2–4 trusted women only
- Meet by voice/chat at home — no unsafe travel required
- Agenda: 30 min English only
- Rotate: one teaches vocabulary, one asks questions
- No criticism of accent — one correction per person per session
- Share **resources**, not personal danger stories

Weekly format:

Min	Activity
-----	----------

Min	Activity
5	Warm-up: each says one sentence
10	Quiz each other on words
10	Read one paragraph aloud
5	Plan homework for alone days

Lesson 6 — Anti-burnout rules (10 min)

- **One day off** per week is OK
- **Max 45 min** if tired — quality over quantity
- Switch skill if bored (grammar → listening)
- Sleep and food matter for memory
- Celebrate **months studied**, not only level jumps

Lesson 7 — Common learning myths (10 min)

Myth	Truth
“Adults cannot learn”	Adults learn well with strategy
“Accent must be perfect”	Clarity beats accent
“Grammar first, speak later”	Speak small from day 1
“One app is enough”	Rotate skills and sources
“Missing a day = failure”	Habit returns with one session

Examples

Monday self-talk after a hard week:

I stopped for five days. That is human. Today I review ten words and listen to one clip. I am still a learner. I am still moving forward.

Sister circle message:

Sisters, tomorrow 4 p.m. we practice English 30 minutes. Bring three new words. We will read paragraph 2 from Reading module together.

Practice tasks

1. Write your *why* in 2–3 sentences.
2. Plan your safe study corner (draw or list).
3. If you had a break, do 15-minute restart today.
4. Optional: invite one trusted friend to 30-min English chat.

Self-check questions

1. What are the 3 pillars?
 2. What should you do after a 2-week break?
 3. Name two sister-circle safety rules.
 4. Why is shame harmful to learning?
 5. What is a good goal for a tired day?
-

Common mistakes

Mistake	Fix
All grammar, no joy	Add favorite topic weekly
Studying 3 hours once, then zero	Small daily beats rare marathons
Comparing to native children online	Compare to your tracker
Isolating completely	One safe partner helps accountability

Milestone goals

When	Goal
Week 1	Written <i>why</i> + study corner
Month 1	20+ study days logged
After any break	Restart within 48 hours
Month 6	Optional circle running 4 weeks

Study habits (meta)

- Sunday: read this file's *why* again
 - Monthly: honest reflection in tracker
 - Yearly: re-read [01-overview.md](#) — see how far you've come
-

Extended practice

90-day habit grid: Mark X for each study day — aim 70+ days in 90.

Confidence: [building-confidence.md](#) — read shame recovery script weekly.

Interruption plan: If you miss 7 days, do NOT study 3 hours once — do 15 min/day for 5 days instead.

My Name

Hello. My name is Amina. I am twenty years old. I live in Afghanistan. I study English at home. I use my phone. I learn ten words every day. I want to read books in English. I am patient. Thank you.

Questions: 1. Name? 2. Age? 3. Where live? 4. How many words daily? 5. What does she want?

Reading 2 — Level B (Elementary)

A Message to My Sister

Dear sister,

Good morning. I am fine today. I studied English for thirty minutes. I learned the words *hope*, *courage*, and *practice*. Tomorrow I will listen to a slow podcast. Please study with me on Saturday. We can read this text together.

Love, Maryam

Questions: 1. How long did she study? 2. Name three words. 3. What will she do tomorrow? 4. When does she want to study together? 5. Who is the message for?

Reading 3 — Level C (Pre-intermediate)

Studying When Life Is Hard

Last year, Fatima stopped school for several months. She felt sad, but she did not quit English. She studied at home every day when she had time. Sometimes she studied only fifteen minutes. She used free websites and downloaded audio files.

Now Fatima can write a paragraph about her day. She believes small steps are stronger than one long day per month. Her mother is proud. Fatima wants to take an online course next year.

Questions: 1. Did she quit English? 2. How long on bad days? 3. What can she do now? 4. Who is proud? 5. What is her plan for next year?

Reading 4 — Level D (Intermediate)

Remote Work and Language

Many young women learn English because they want remote work. Remote jobs need clear writing and calm video calls. You do not need perfect grammar on day one, but you need consistent practice.

First, build a daily habit. Second, record your voice and listen. Third, write short emails to yourself. Fourth, read news in easy English. Finally, apply for small tasks when you feel ready.

However, protect your privacy online. Do not share your address. Use trusted platforms. If a job offer looks too good, it may be a scam.

Questions: 1. Why learn English for work? 2. List two skills for remote jobs. 3. What are four steps in the text? 4. What privacy warning is given? 5. What is the main idea?

Reading 5 — Level E (Upper intermediate)

Education and Hope

Education is not only a building with desks. It is also a lamp in a dark room. When classrooms close, learning can continue on a phone, in a notebook, or in a sister circle at home.

Researchers often report that literacy improves health and income over time. Although resources are limited, women who read and write gain more control over information. They can verify news, understand medicine labels, and support their children.

Therefore, self-study is not a small choice. It is an act of hope. Every word you learn today may help you tomorrow — and the next year, and the next decade.

Questions: 1. Metaphor: education is a ___? 2. Name two benefits of literacy from the text. 3. What can women verify? 4. What is self-study compared to? 5. Write one sentence agreeing or disagreeing.

Reading 6 — Level B (Health)

A Simple Day

Sara wakes up at six. She drinks warm water and tea. She does not feel well, so she rests for one hour. Later she studies English for twenty minutes. She eats rice and vegetables for lunch. In the evening, she walks in the house and stretches her arms. She goes to bed early. She says, "Rest is also study for the body."

Questions: 1. What time does she wake up? 2. Why does she rest one hour? 3. How long does she study? 4. What does she eat? 5. What is her quote about rest?

Reading 7 — Level C (Technology)

My Phone Is My Classroom

When classrooms are far or closed, my phone becomes my classroom. I download lessons on good Wi-Fi days. I save vocabulary in my notes app. I record my voice and listen again. Sometimes the battery is low, so I plan charging time like I plan study time. I do not open unsafe links. I use passwords my family does not know. English on my phone is freedom with responsibility.

Questions: 1. What is her classroom? 2. When does she download? 3. Name two study actions on phone. 4. Two safety habits? 5. Main idea in one sentence?

Reading 8 — Level D (Opinion)

Should Women Study Alone at Home?

Some people say women should not study alone. I disagree. Home study can be safe and strong when the family supports education. A woman can learn grammar, listen to podcasts, and write emails without traveling. However, she should protect her privacy online and choose trusted apps.

In my opinion, the question is not "alone or not alone." The question is: does she have time, safety, and hope? If yes, home study can change her future.

Questions: 1. What do some people say? 2. Does the writer agree? 3. Name two skills learned at home. 4. One online safety rule? 5. What is the writer's real question?

Reading 9 — Level D (Narrative past)

The Day I Spoke English

Last Friday I was nervous. I opened my notebook and read six sentences aloud. My sister listened from the kitchen. At first I forgot a word, but I continued. I said, "I study because I want a better future." My sister smiled and said, "Good job." That small moment was my victory. I recorded it on my phone. I will listen again when I feel afraid.

Questions: 1. When? 2. Who listened? 3. What problem happened? 4. What sentence did she say? 5. Why will she listen to the recording?

Reading 10 — Level E (Argument)

Language as a Tool, Not a Trophy

Fluent accents attract attention on social media, but education is not a performance. For many Afghan women, English is a **tool**: to read health information, to apply for scholarships, to work online, and to teach younger sisters.

Although perfect pronunciation is admirable, **communication** matters more. Learners should measure progress by tasks they can do today — write an email, understand a headline, speak for two minutes — not by comparison with native speakers.

Therefore, policy and families should support daily practice, safe internet use, and patience. Language opens doors only when the learner keeps walking.

Questions: 1. English is a tool for what four things? 2. What matters more than perfect accent? 3. Give two progress measures. 4. What should families support? 5. Write 2-sentence summary.

Building Fluency

Use with [07-speaking.md](#), [10-intermediate-growth.md](#), [13-practice-plans.md](#).

What fluency means here

Fluency is **smooth, understandable speech** — not zero mistakes. You can be fluent at B1 and still learn until C2.

Fluency grows when your mouth practices English as often as your eyes.

The 4 fluency engines

Engine	Daily action	Minutes
Input	Listen to clear English	10
Output	Speak aloud (self-talk)	10
Feedback	Record + listen once	5
Review	Repeat yesterday's phrases	5

Week 1–4 fluency challenge (beginner)

Week	Challenge
1	Say 5 sentences about morning — no writing
2	Shadow 10 lines from slow audio
3	60-sec voice note daily
4	Describe a photo in 8 sentences

Week 5–12 (intermediate)

Week	Challenge
5–6	Tell past story 90 sec
7–8	Opinion + because + example 2 min
9–10	Summarize a short article aloud
11–12	Role-play both sides of a dialogue

Connector pack (paste in Notes)

First, ... / Then, ... / After that, ... / However, ... / Because, ... / For example, ... / In my opinion, ... / Finally, ...

Drill: Use 4 connectors in one 2-minute talk.

When you freeze

- 1. Say: *Let me think*.
 - 2. Say idea in **simple** words.
 - 3. Use gesture if with sister (optional).
 - 4. Do **not** switch to Dari mid-sentence if goal is English mode.
-

Milestones

Level	Fluency sign
A1	30 sec intro smooth
A2	1 min routine
B1	2 min story
B2	3 min opinion
C1	5 min structured talk

Building Confidence in English

Use with [07-speaking.md](#), [12-study-strategies.md](#).

Confidence is a skill

Confidence is not a gift. It is **practice + kind self-talk + proof of progress**.

You are allowed to sound like a learner. Learners become fluent.

7 confidence rules

- 1. **Speak before you feel ready** — feeling follows action.
 - 2. **One mistake per correction** — not ten at once.
 - 3. **Record in private** — proof beats memory.
 - 4. **Compare to last month** — not to native speakers online.
 - 5. **Celebrate speaking days** — mark ✓ in tracker.
 - 6. **Rest without guilt** — return tomorrow.
 - 7. **Your voice has value** — ideas matter more than accent.
-

Shame recovery script (read aloud)

I stopped for a while. That is human. Today I study fifteen minutes. I am still a learner. I am still moving forward. I do not need permission to try again.

Write your own version in English. Read every Monday.

Weekly confidence tasks

When someone mocks your English

You may say: *I am learning*. Then leave the conversation mentally. Do not carry their words into study time.

Confidence milestones

- ☐ First recording kept 7 days
- ☐ Spoke 5 days in one week
- ☐ Introduced self without script
- ☐ Handled one hard day without quitting 2 weeks
